

Parking Lot Procedures For Willow Woods Elementary School

In order to afford **maximum safety** conditions for all students, it is important that we have the cooperation of the parents who drive their children to school.

If you park anywhere but in the parking area marked in red you **MUST** 1) park in an official parking space (**not in the designated pick up lane**) and 2) get out of your vehicle and walk to the sidewalk area and safely cross your child in the parking lot.

The designated pick up/drop lane is marked beginning and ending between these **blue lines**. This is the **ONLY** area where your child can walk to enter your vehicle in front of the school. This area is the pick up/drop lane.

Patient...Waiting Area – Be careful!
(marked between the **red lines**)
You may get blocked in for a few minutes
When parking here to pick up students.
Students may walk to your vehicle only while parked here or in the designated pick up/drop-off lane.

Stay in your car when you are in the pick up/drop lane.

Bus Area – **NO** cars moving in this area during school entrance or dismissal times

Drop off students along the designated pick up/drop-off lane and **LEAVE; do not park along the curb to watch your students.**
The stopping of some vehicles to watch their children walk into or around school causes congestion and creates a safety hazard for the children.

The drive at the side of Willow Woods is for **BUSES ONLY** – see diagram above.

SAFETY FIRST!
