- The ASN List defaults to the ASNs that the user is authorized to and is limited to 50 per page.
- Click the selected line to load the ASN to the ASN Detail or current tab.
- The level description can be viewed by hovering over the selected level.
- The Export and Transaction Report includes all ASNs that the user is authorized to, not just the current page.
- Use Page Down/Page Up to view additional/previous ASNs.
- The ASN List, Export and Transaction Report can be limited by using the Sort/Filter option.
- Calculated totals, if selected, are loaded to the first row in the ASN List table.

## **Finance Inquiry – ASN List Transaction Report**

- The report option produces a PDF that is displayed in a pop-up window.
- The export option gives the ability to open or save the .csv file.
- The Transaction Report option is also available for the selected ASN.

## **Finance Inquiry – Favorites**

- Favorite ASNs are maintained on the ASN Detail tab.
- Sort/Filters are maintained, and can also be run, on the Sort/Filter tab.

## **Finance Inquiry – Sort/Filter**

- Sort/filters are used to sort and select the ASNs that are loaded to the ASN List.
- The user *must* be authorized to the ASN for it to be loaded.

Run the Save the sort/filter Clear the Finance Inquiry – Sort/Filter Edit

- Multiple Value selections are separated by a comma (,).
- ASN level value lookup replaces the Sort Criteria screen.
- Up to six level selections and sorts are allowed.

- ASN Detail: Displays summary ASN information.
- Transaction Report: Provides the ability to produce a PDF Transaction Report or export the report as a .csv file.
- Journals: Displays the posted journal entries with drilldown and export capabilities.
- Checks: Displays the updated A/P checks with drilldown and export capabilities.
- Purchase Orders: Ability to display all purchase orders including the Authorization file with export capability.
- Accounts Receivable Encumbrance: Displays the current A/R encumbrance with export capability.
- Budget History: Displays all budget and beginning balance changes with export capability.
- Narrative: Displays the ASN narrative.
- Monthly Summary: Summarizes the debits and credits and displays the ending balance for each fiscal month.
- Warehouse Requisitions: Ability to display all requisitions including the Authorization file with export capability.

**Finance Inquiry – ASN Detail** 

- To lookup an ASN, enter the starting ASN value or precede the value with an "\*" to use the Contains lookup selection.
- The prior year summary information is limited to nine years. The summary information is recalculated based on the YTD Activity selection.

- The report option produces a PDF that is displayed in a pop-up window.
- The export option gives the ability to open or save the .csv file.
